OTHER AGENCY INVOLVEMENT/IMPACT

General Services Agency, Fleet Services Unit coordinates the disposition of the equipment via a public auction.

Diesel equipment, such as the dump trucks, are being phased out under California Air Resource Board (CARB) requirements for air emissions reductions. Public agencies are subject to the CARB criteria for retrofit or replacement.

FINANCIAL CONSIDERATIONS

These vehicles will be sold at public auction after being replaced. Proceeds from the sales will be deposited into the Public Works Internal Service Fund (ISF) Equipment Replacement Services.

RESULTS

Disposition of the surplus equipment generates revenue for the ISF equipment replacement reserves and enables Public Works to effectively manage the department fleet of vehicles and equipment. This provides for a well-governed community.
